

Safety Services

Fire and Emergency Medical Non-Emergency 937-426-1213

Fire Stations

Four fully staffed Fire Stations provide emergency medical and fire services within Beavercreek 24 hours a day. They provide fire suppression, emergency medical services (EMS), and fire prevention services to the residents of Beavercreek Township, including the City of Beavercreek, and parts of Bath Township. Each fire station has a fire engine and a medical unit available to respond to emergencies. Beavercreek Township has plans to build two additional fire stations to service growth in the community.

Growth

Established in 1946, the fire department has grown from four volunteer fire companies into a modern, suburban fire department staffed by 80+ dedicated full-time firefighters. Every day, a staff of up to 24 firefighters and paramedics located at the four fire stations provide 24-hour emergency response to any call for help.

Equipment & Personnel.

The department also has a shift commander, a ladder truck, a water tanker, a heavy rescue, a communications unit, and reserve engines and medics. These apparatuses can be staffed in a variety of ways to meet the emergency needs of Beavercreek. The Fire Department protects a greater than 50 square mile area within Greene County.

Law Enforcement Services Non-Emergency 937-427-6565

Beavercreek Township is under contract with the Greene County Sheriff's Office. The Township owns a fleet of police cruisers manned by the Sheriff's Office who patrol the Township 24 hours a day on two overlapping shifts.

The Sheriff's Office Sub Station is in the Beavercreek Township Fire Department Station 61 at 2195 Dayton-Xenia Road, lower level. The Sheriff's Office Patrol provides sophisticated specialized services to the Township.
